GREASE GOBLIN
The ominous and creeping Root Myzer is our greatest enemy of our sewer pipes. If the Root Myzer gets its clutches in our pipe joints, it can break our pipe joints or cause a stoppage.

The lurking Grease Goblin is another nuisance that needs to be destroyed. The Grease Goblin can attack our pipes by attaching itself to the inside of the pipes constricting flow and causing a stoppage. DO NOT FEED THE GREASE GOBLIN BY DUMPING GREASE DOWN YOUR SINK!!!
